User-Engagement in Research at a UNIVERSITY...
End-user engagement increasingly common in research....
However, not in universities
Comensus

Blending academics and end-users in a university.
INNOVATIVE THINKING FOR THE REAL WORLD

Changing things for the better

Providing special insights

Increased social networks

Motivation to help

Valued relationships with researchers
An example from Lisa Davies
An example from Jacqueline Vella
Value for an organisation
Value for an organisation

- Impact on student experience & learning
- Enhanced reputation-raising international profile
- Improved community image and relationships
- Scholarly outputs
- Recognised good practice
- Improved research grant acquisition
