Presentation of : “The Social economy in the European Union”
Brussels, 8 october 2012

The Social Economy in the European Union

José Luís MONZON & Rafael CHAVES

*CIRIEC – INTERNATIONAL www.ciriec.ulg.ac.be
Centre international de recherches et d'information sur
l'économie publique, sociale et coopérative*

OUTLINE OF THE PRESENTATION

- **Background of the CIRIEC's Study**
- **Objectives and methodology**
- **Main figures on European SE**
- **The emergence of legal status on SE**
- **The SE and the crisis**

BACKGROUND:

2008: Study of CIRIEC-International “*The Social Economy in the European Union*”

Full Report (English, French, Spanish):

<http://www.eesc.europa.eu/?i=portal.en.social-economy-category-documents.3167>

Summary Report (All official languages of the EU):

<http://www.eesc.europa.eu/?i=portal.en.social-economy-category-documents.3166>

2000: Study of CIRIEC-International “*The enterprises and organizations of the third system (SE) in the European Union*”, European Commission - DGV (15 Countries)
(downloadable in: www.uv.es/uidescoop/ciriec)

MAIN OBJECTIVES OF THE STUDY

- 1.- To **actualize** the study carried in 2008
- 2.- Analyse **definitions** of the social economy, taking into account current debates on social enterprises and other
- 2.- Provide **macro-economic data** on the social economy in the 27 Member States and the 2 candidate countries
- 3.- To analyze the **impact of the economic crisis** on the social economy in Europe.
- 4.- Examine **recent national legislation** on social economy

METHOD

- Report has been directed and written by the directors:
Prof. Dr. José Luis Monzón & Prof. Dr. Rafael Chaves
- Advised by a Committee of Experts (D.Demoustier –France-,
Ch.Ciara & A.Zevi –Italy-, M.Huncova –Chequia, R.Spear –U. Kingdom-)
- Colaboration of the Scientific Commission of CIRIEC-International
- Colaboration of our network of national correspondents
- Colaboration of the members of the EESC
- Empirical data based on a Questionnaire ad hoc, information from
national experts and secondary sources of information
- Discussion of the work schedule, methodology, intermediary report
and proposed final Report

Shared features of the Social Economy:

- 1) They are private;
- 2) They are formally-organised;
- 3) They have autonomy of decision, meaning that they have full capacity to choose and dismiss their governing bodies and to control all their activities;
- 4) They have freedom of membership;
- 5) Any distribution of profits or surpluses among the user members, should it arise, is not proportional to the capital or to the fees contributed by the members but to their activities or transactions with the organisation.
- 6) Objectives: to pursue an economic activity in its own right, to meet the needs of persons, households or families.
- 7) Decision: participative and democratic organisations.

WORKING DEFINITION OF THE SOCIAL ECONOMY:

“The set of private, formally-organised enterprises, with autonomy of decision and freedom of membership, created to meet their members’ needs through the market by producing goods and providing services, insurance and finance, where decision-making and any distribution of profits or surpluses among the members are not directly linked to the capital or fees contributed by each member, each of whom has one vote.

The Social Economy also includes private, formally-organised organisations with autonomy of decision and freedom of membership that produce non-market services for households and whose surpluses, if any, cannot be appropriated by the economic agents that create, control or finance them”

The 'fields' of the Social Economy / Social enterprises

Social Economy

The diagram consists of three overlapping ovals. The largest oval at the top is light orange and contains the text 'Social Economy'. Below it, two smaller ovals overlap each other and the larger one. The top-left oval is light blue and contains the text 'Social enterprises (continental approach)'. The bottom-right oval is light green and contains the text 'Social enterprises (angloamerican approach)'. The intersection of the two smaller ovals is shaded in a darker green.

*Social enterprises
(continental approach)*

*Social enterprises
(angloamerican approach)*

INDEX OF THE STUDY

Chapter 1.- Introduction and objectives

Chapter 2.- Historical evolution of the social economy concept

Chapter 3.- Identification of the actors or groups included in the social economy concept

Chapter 4.- The main theoretical approaches related to the social economy concept

Chapter 5.- Comparative analysis of the prevailing definitions relating to the concept of the social economy in each European Union member state and candidate countries

Chapter 6.- The social economy in the European Union and in the candidate countries in figures

Chapter 7.- The legal framework of the social economy actors in the European Union countries and candidate countries and the public policies in place, with special attention to recent new national legislation on social economy

Chapter 8.- The social economy in a Europe facing a global crisis

Chapter 9.- The European Union policies and the social economy, with special attention to the Europe 2020 strategy: facts and impacts.

Chapter 10.- Challenges and conclusions

Bibliography

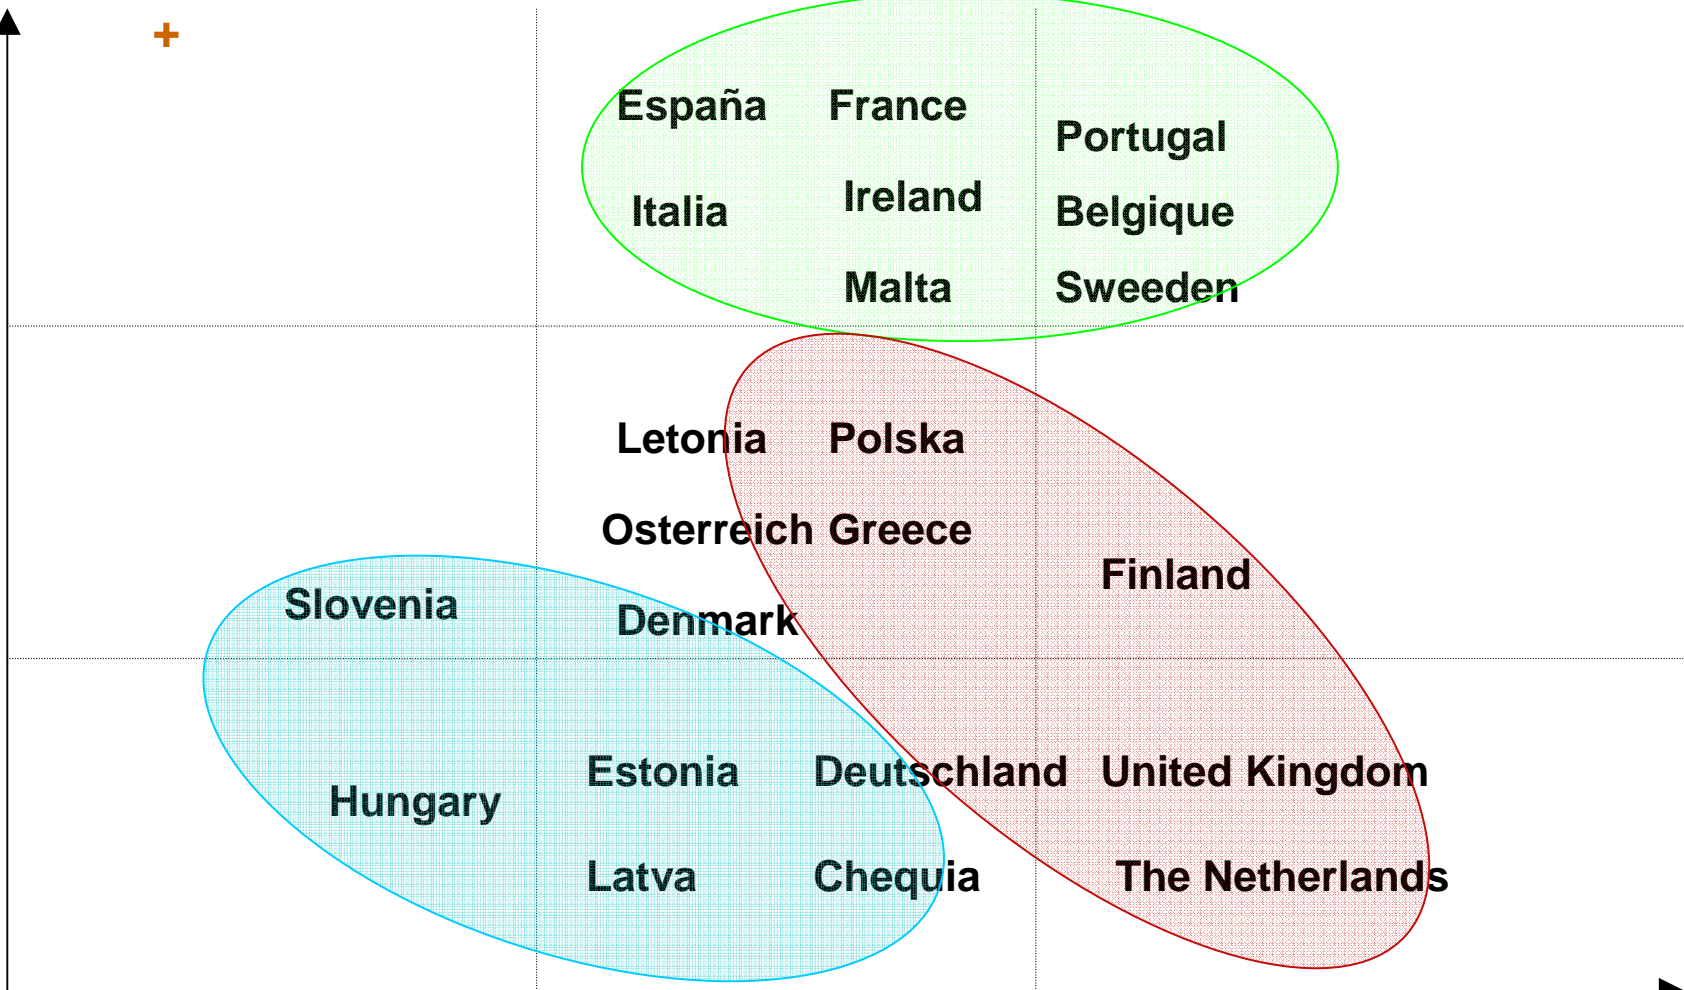

Appendix

RESULTS

Graf. 1. National acceptance of the concept of “Social Economy” and other concepts

Social Economy

+

**Other concepts: Social enterprises,
Nonprofit sector, Third sector**

- The Social Economy:**
- not a legal definition,
 - then it is not a socioeconomic field only composed by Co-operatives, Mutuels, Associations and Foundations....

France	Bill	Solidary economy (failed), new bill

The Social economy facing crisis

1. The social economy entities facing financial crisis
2. The social economy facing the economic and employment crisis
3. The social economy facing the public sector and welfare state crisis

The impact of the crisis in the Social Economy in Europe in few figures:

In **Italy**, employment levels continued to rise in the 106 biggest social cooperatives: they grew from 75,828 employees in 2008 to 81,156 in 2009 and 84,243 in 2010.

In **Spain**, the European country with the highest unemployment rate, employment in cooperatives fell by 9% between 2008 and 2012 while salaried employment in the private sector as a whole fell by 19%, over twice as much.

In **Germany**, according to the figures from Creditreform-Datenbank, in 2010 only 0.1 % of the insolvencies concerned involved cooperative enterprises, the lowest figure among of any form of enterprise

In the **United Kingdom**, in an era of retrenchment of welfare state, employment in the voluntary sector rose from 642,000 jobs in 2007, to 765,000 in 2010, 2.7% of the UK workforce. Nevertheless, the financial crisis has led to drastic cutbacks in public funds for the voluntary sector in 2011 and 2012, directly affecting employment levels in these organisations
