OUR STATEMENT

The municipality – an active part

We want to participate and be an active part in the whole process of decision making, from start to final closure. We are an asset.

The conditions for permission

We want the conditions stated clearly before we make our veto decision.

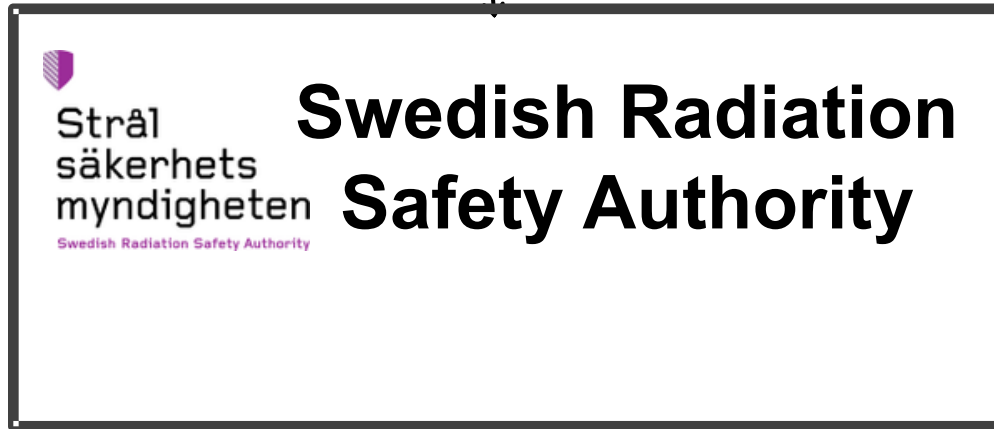

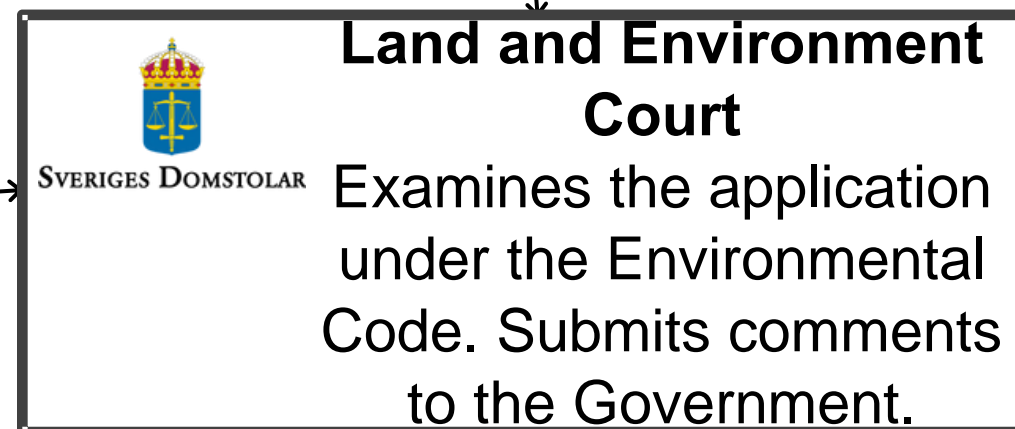

Openness and transparency in the authorities' decision making

We want to understand what assessments the authorities do when making decisions and writing statements to the government.

The legal process in Sweden

KEY FACTORS

Defined roles

Active part for the whole process

we are not for or against

Financing

We need to have external financing for employment and for educating politicians

Also for things that will be a burden because of the etablation

Transparency

What is the risks

what is the benefit

what are the common goals

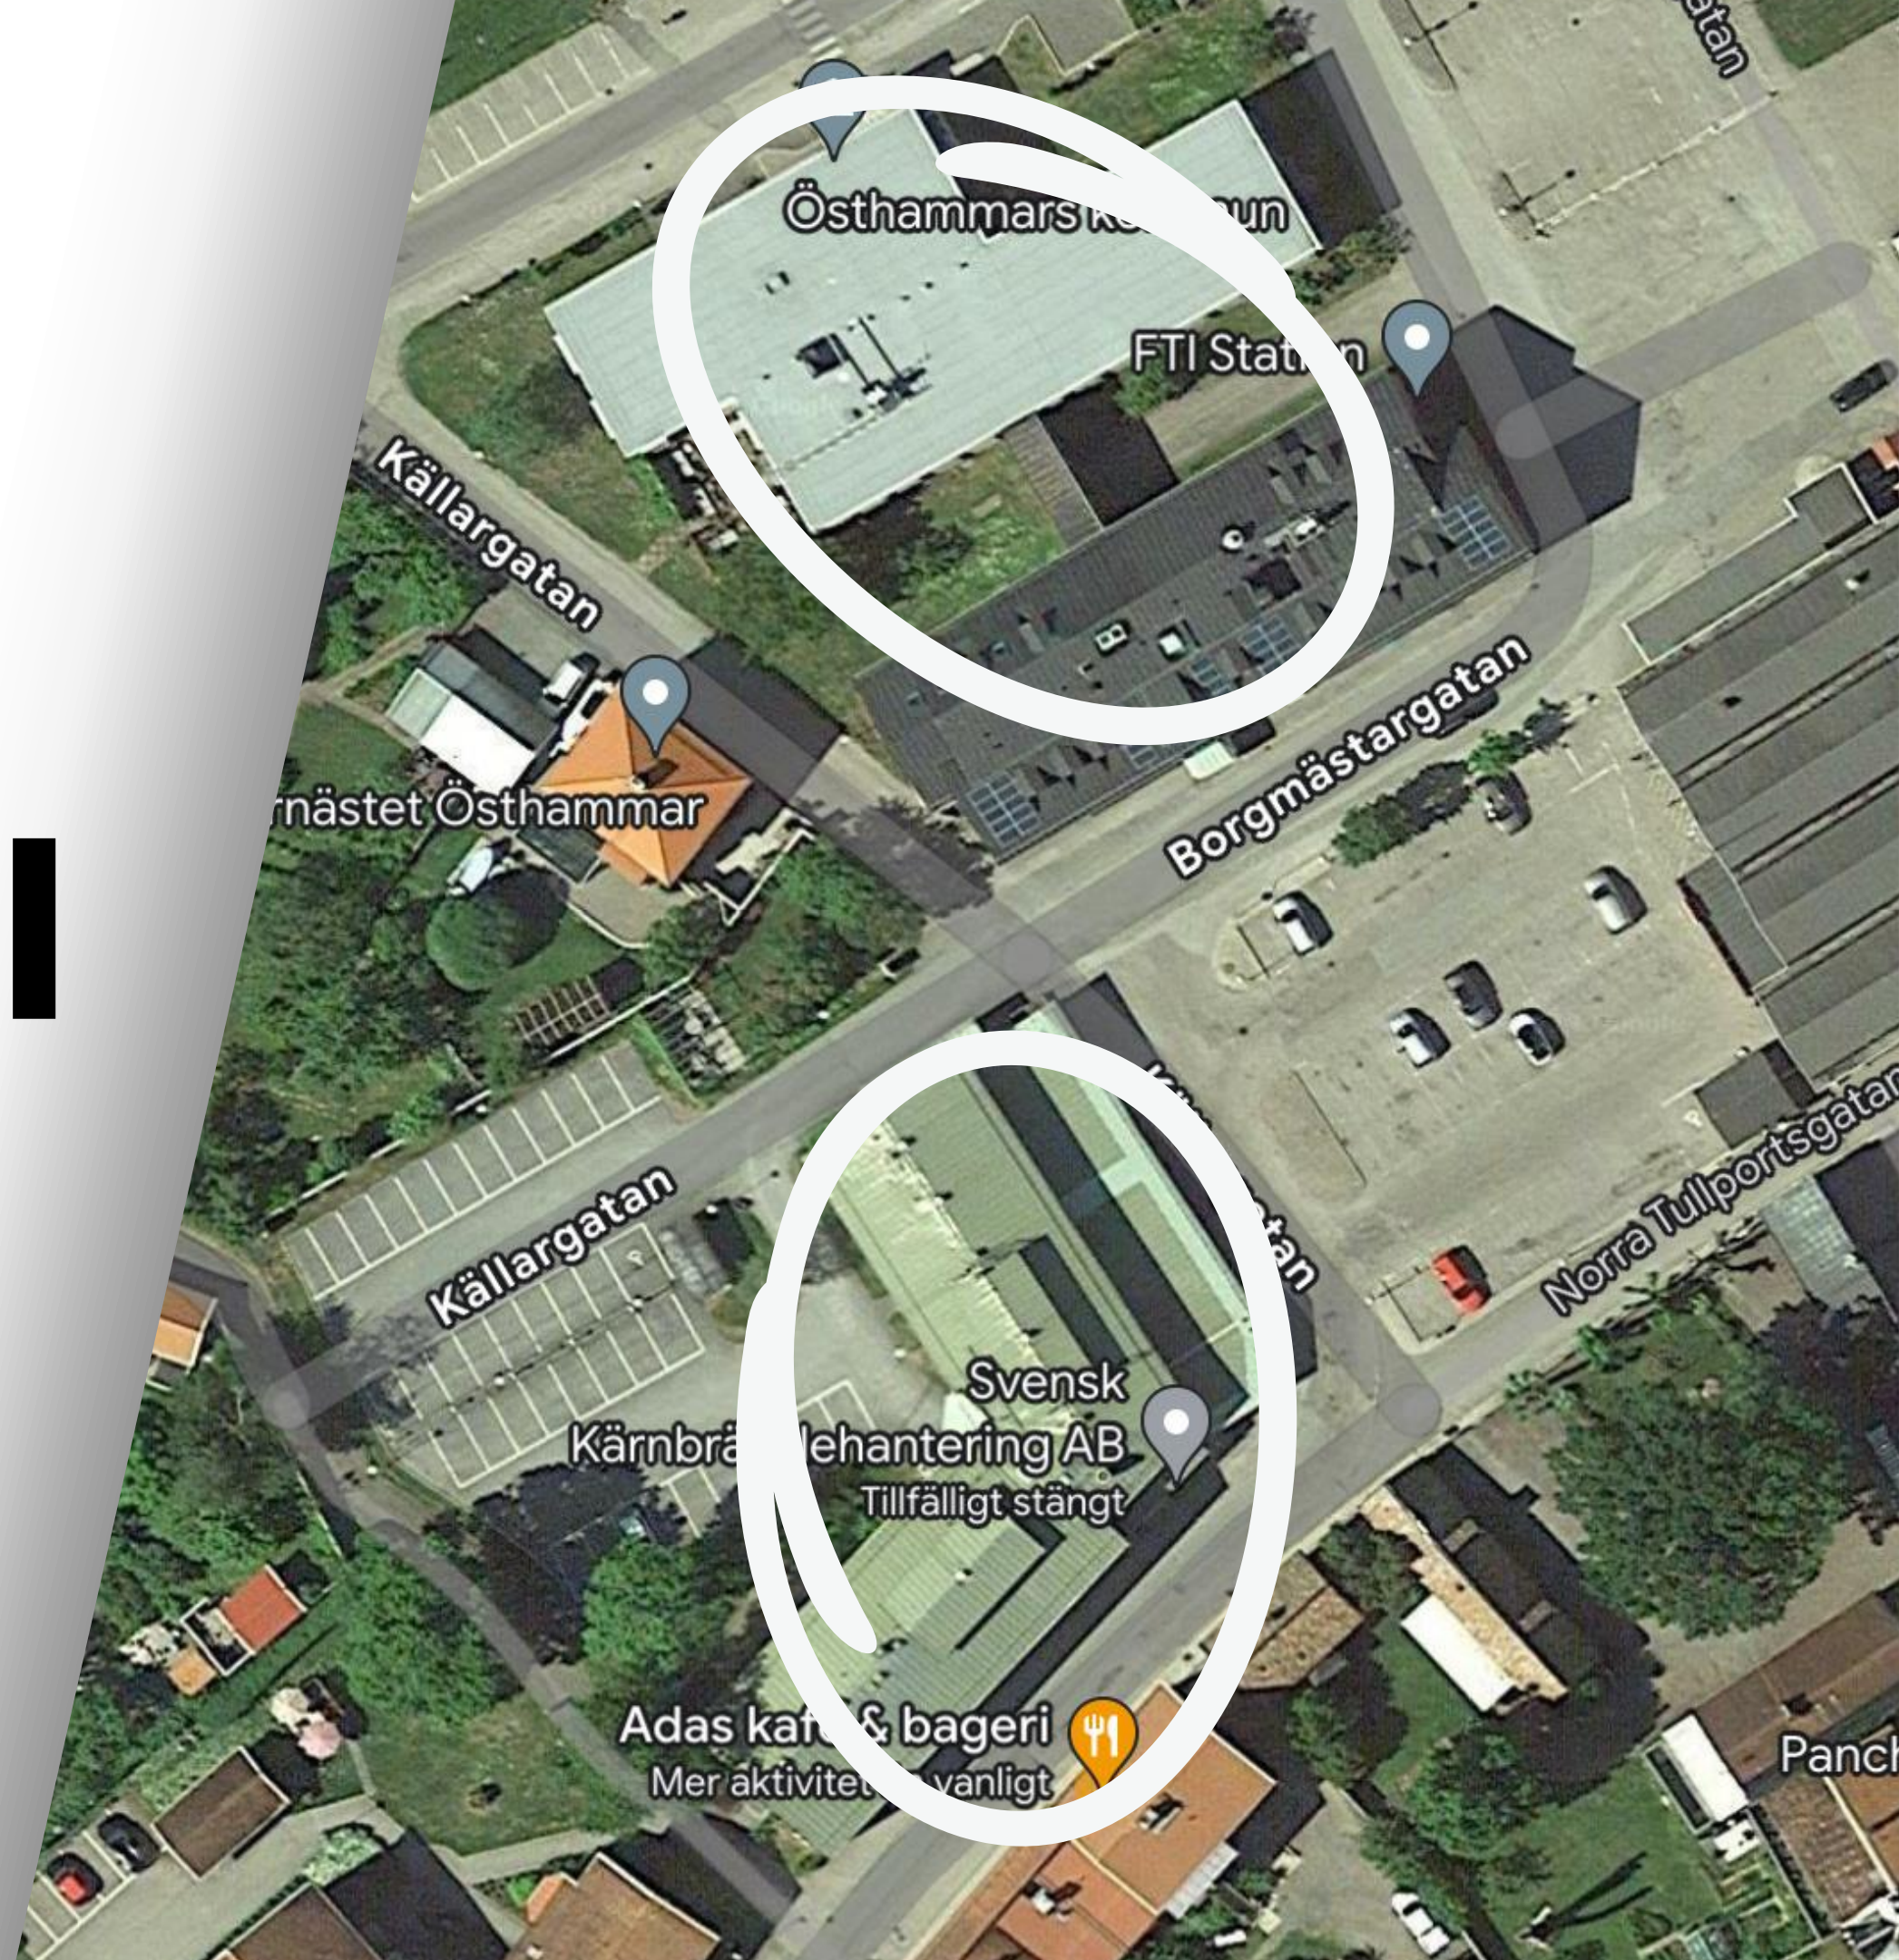

Local presence

Both parties want the public to feel safe and confident in the process

Must be a part of the community and cooperate with local businesses

Keep it local

SUMMARY

LONG-TERM

COLLABORATION

“It should only be one call away”

- Terms and conditions in the environmental court
- Dual communication with citizens
- This is a collaboration
