# A new approach

Green Blue Schoolyards framework

## Design

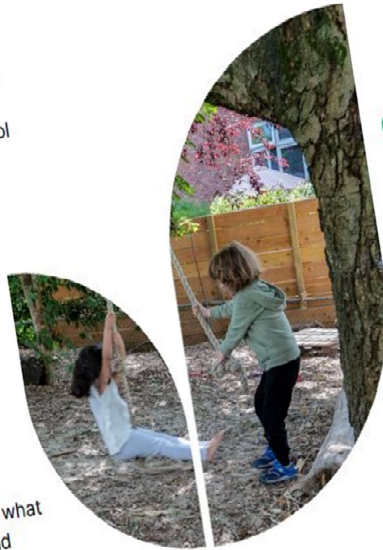

Context: What and where to develop? What are the characteristics of this school and the environment?

## Collaboration

Multi-stakeholder process: who are the stakeholders and how to engage them?

## Policy embedding

Which policies are in place? How to align: what are opportunities and potential challenges

## Judicial implications

What are the Legal considerations to take into account?

## Finance

What are the costs and how to secure funding?
