- **Triin Aasmaa Gomes**, European Economic and Social Committee (EESC)
- **Gemma Amran**, European Economic and Social Committee (EESC)
- **Maria Månsson**, European Economic and Social Committee (EESC)

DG HOME highlighted the next steps to finish up this year's EMF. The forum report will be finalised and published/shared next week; feedback survey is ongoing, analysis to follow shortly; there will be LIBE presentation on the 10 EMF next year once timeslot is confirmed.

The bureau members noted one thing they appreciated and one thing for improvement. The opening panel was highly appreciated and recommended to keep this format, as was 'the floor is yours'. As for 'the floor is yours', it was recommended to include key take-aways of the discussions could be included in the plenary harvest. Other room for improvement was co-designing the roundtables with the moderators; and including pre-forum consultations as part of the EMF cycle. The bureau members offered their expertise in relation to co-designing the sessions and consulting civil society beforehand.

Suggestions for going forward: have more concrete planning in the agenda which follow the milestones of the EMF so that bureau members feel closer to the process. At least one physical meeting would be much appreciated.

Next steps: the EMF secretariat will propose dates for the next meeting.
