

SOCIAL INNOVATION FOR REFUGEE INCLUSION

Social Innovation for Refugee Inclusion: Maintaining Momentum and Creating Lasting Change

16-17 November 2017

Venue: European Economic and Social Committee (EESC)
Rue Belliard 99, 1000 Brussels

Agenda

Following the arrival of large numbers of migrants and asylum seekers in Europe from 2015 onwards, many non-traditional actors—from tech start-ups to social enterprises—have pioneered innovative solutions to foster the social and economic inclusion of newcomers. In the context of this experimentation, business has played a fundamental role, with companies on both sides of the Atlantic leveraging their potential as employers, donors, and partners in innovative alliances.

The aim of this conference is to reflect on how innovative initiatives for refugee inclusion can grow beyond pockets of good practice and inspire large-scale, long-term change. To encourage new partnerships and synergies between different stakeholders, the event will bring together a diverse group of public officials, business leaders, service designers, social entrepreneurs, civil society organisations, and refugee initiatives from Europe, the United States, and Canada.

Day 1: Thursday 16 November 2017

13:30 – 14:30 **Registration, refreshments** (EESC Reception, Foyer 5th floor)

14:30 – 14:50 **Welcoming remarks** (JDE 52)
