

## EESC END-OF-MANDATE REPORTS (Period 2018-2020)

With the mandate of the EESC ending in September 2020, the EESC Sections and other bodies (observatories and groups) prepared reports of the activities they carried out during the last two-and-a-half years, while they were also adapting to the new circumstances brought about by the COVID 19 pandemic.

The purpose of these reports is to give a description and key statistics of the main achievements and findings of the Sections and bodies. They also serve as a basis for interinstitutional cooperation and communication, and allow to build perspective for the next mandate, by introducing new members to the multifaceted work of the Committee.

The structure of the report for the Sections is as follows:

- An introductory message from the Section President
- A description of the Section's activities divided by political/legislative priorities
- The interinstitutional echo of the Section's activities
- The Section's communication achievements
- The Section's perspective for the next mandate
- Three appendixes presenting some key statistics, a list of adopted opinions, information reports and studies, and a list of events organised by the Section or attended by Section members.

The structure of the report for the other bodies is as follows:

- An introductory message from the President of the body
- A description of the activities and the main findings of the body
- An appendix listing the events organized and attended by the body
