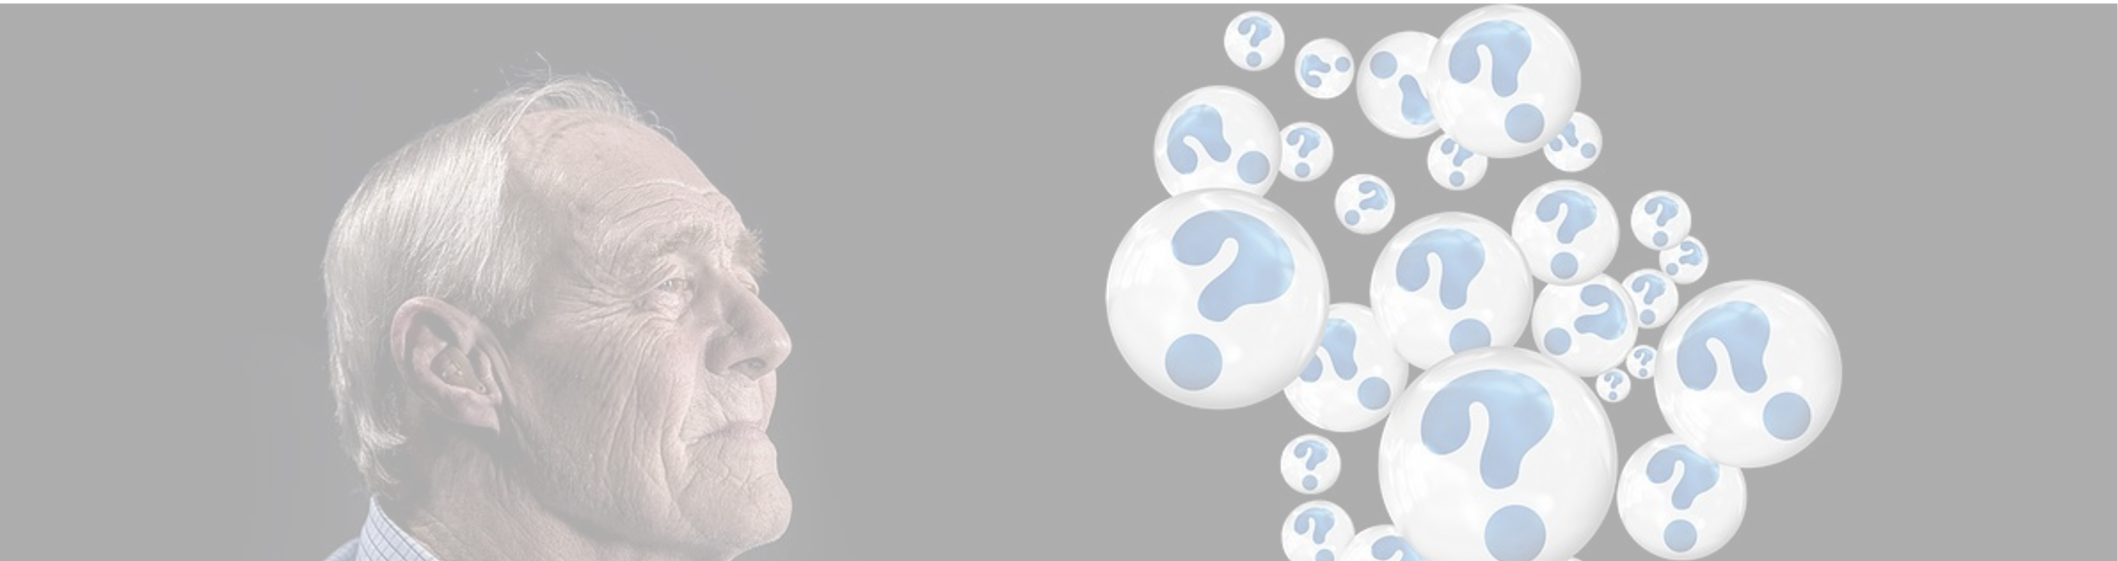
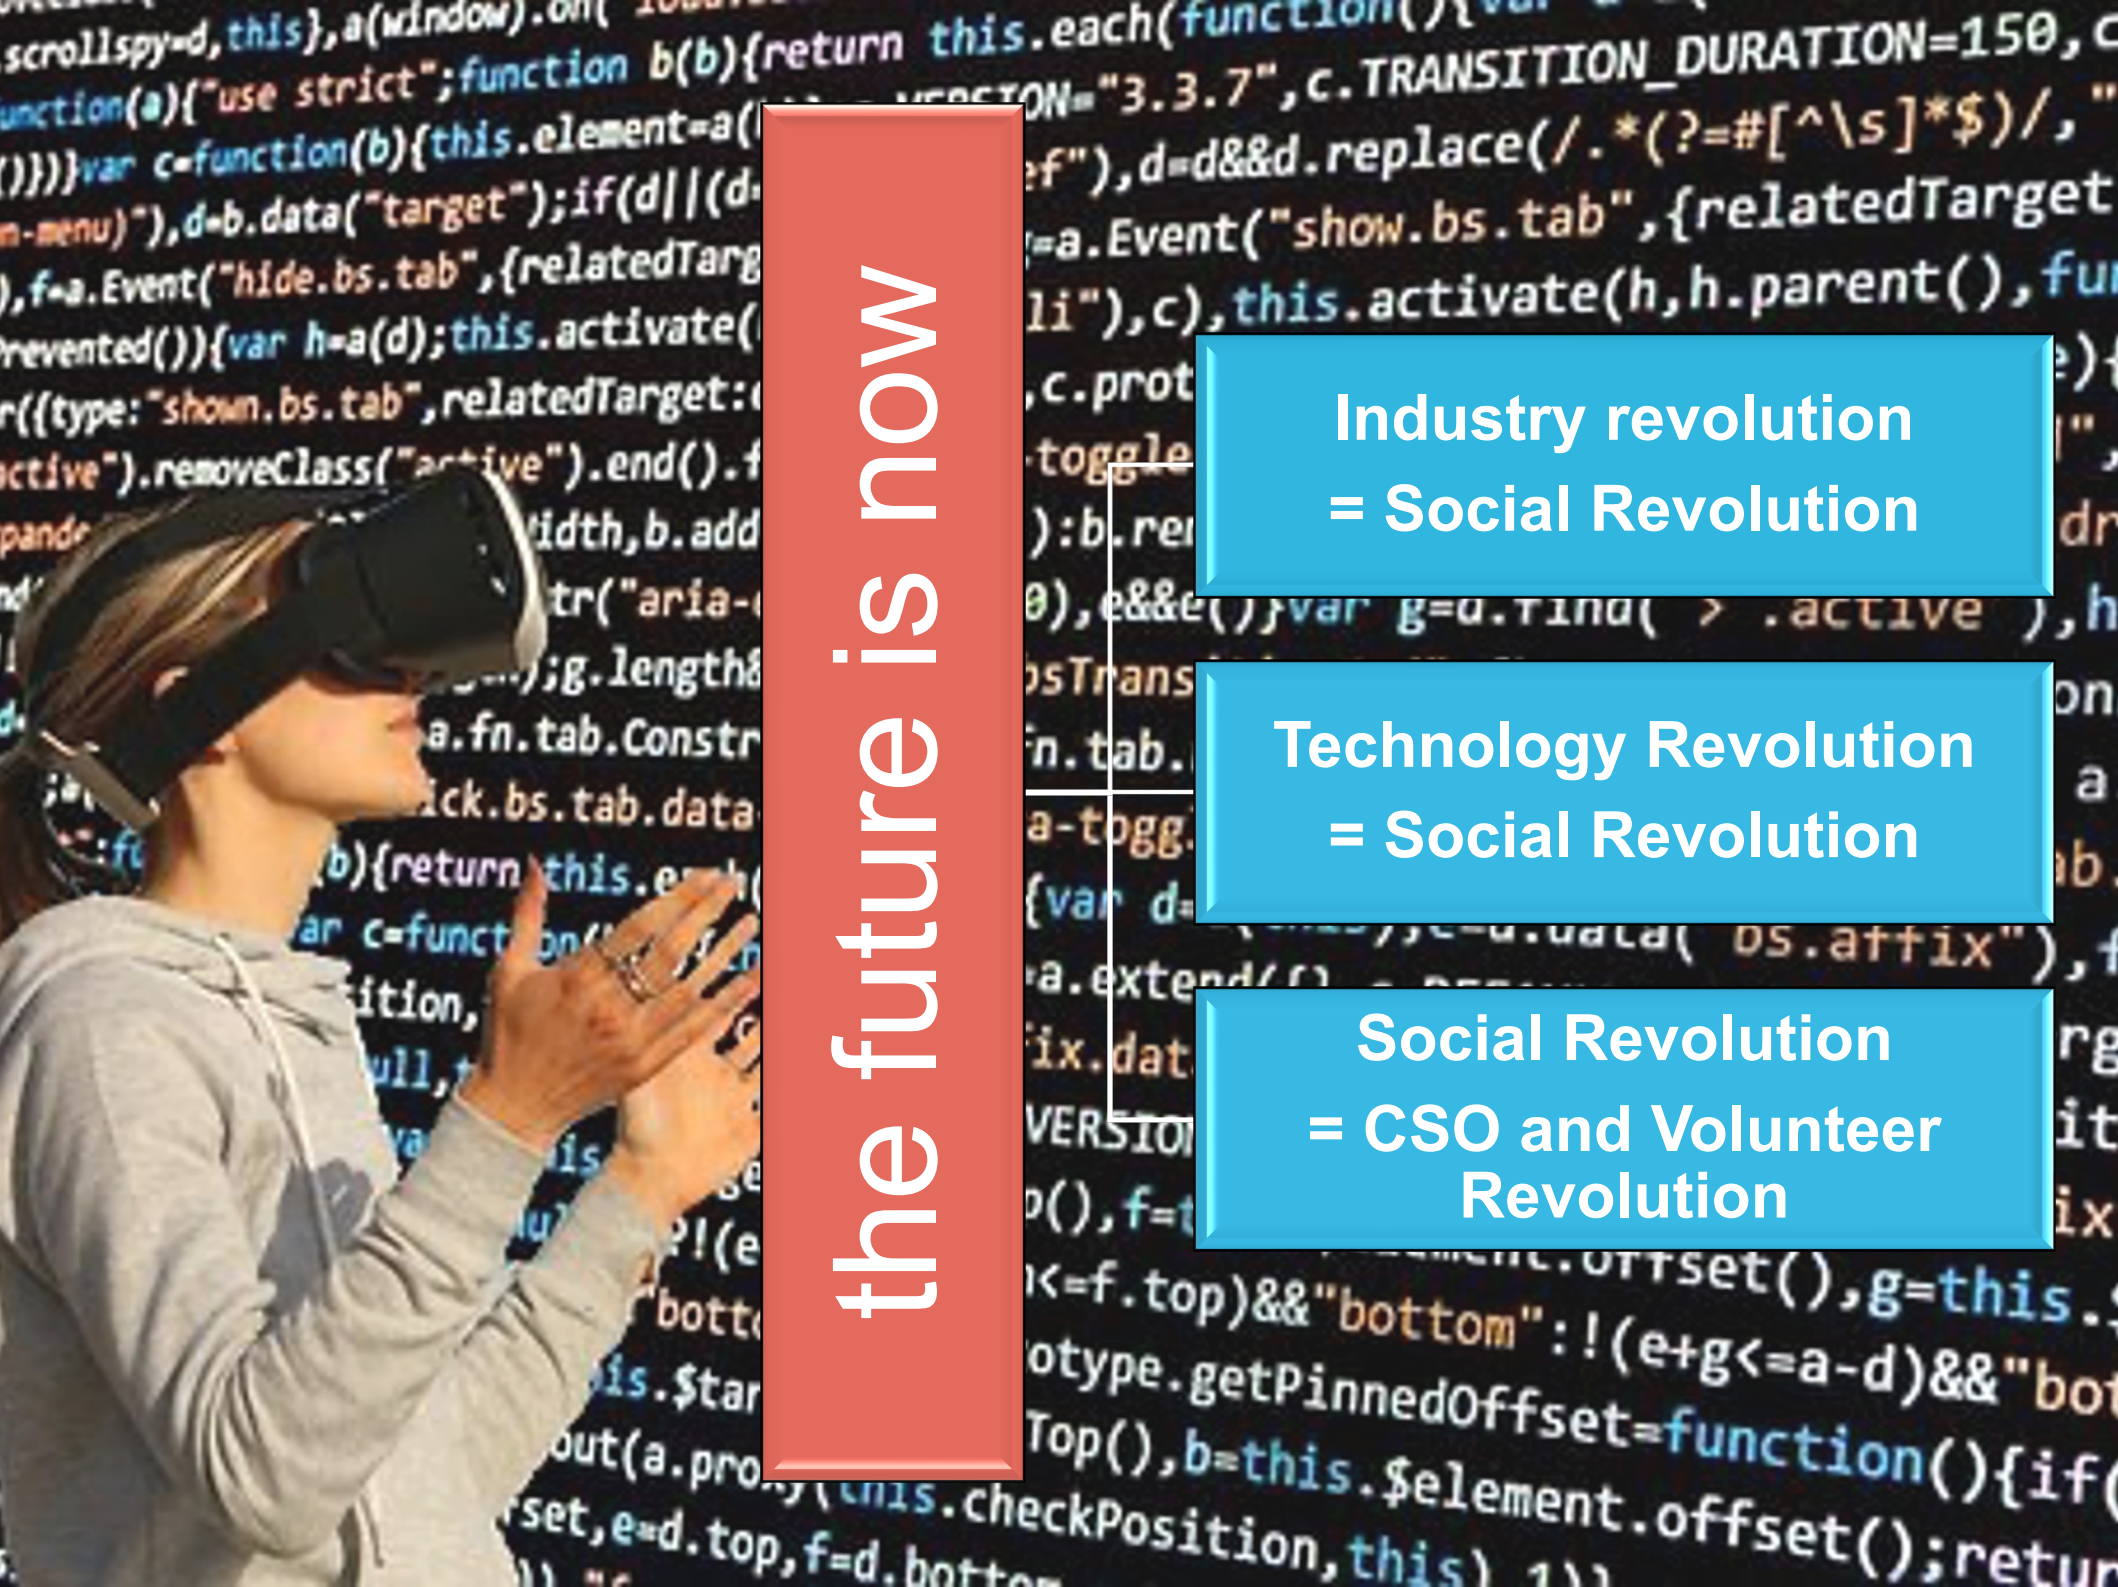
What does our reality and future look like?

Smart factories with cyber-physical production systems in the surroundings:
- Internet of People (Social and Business Networks)
- Internet of Things (Smart Mobility)
- Internet of services (smart networks and logistics)
- Internet of data (smart buildings and apartments)

How we as civil socjety organisations feel with 4.0 industry?
Are we ready for it and the future?



RESILIENT
Industry
5.0
HUMAN-
CENTRIC
SUSTAINABLE



the future is now
Industry revolution
= Social Revolution
Technology Revolution
= Social Revolution
Social Revolution
= CSO and Volunteer Revolution

Elon Musk publicly admitted in 2018 that there were too many robots in Gigafactory, Nevada, and thus there were delays in the production of the Model 3, and that people simply... underestimated.

Thank you for your time
