ACCELERATING AND SCALING UP TRANSNATIONAL ADAPTATION IN EU

1 October 2021 - 30 September 2025

About Transformar:

- EU Horizon 2020 project
- **22 partners**
- **11 countries**
- **6 demonstrators**
- **4 years**
- Aim: Develop and test products and services to **accelerate large scale transformative action related to water management** in European regions and communities

1. Putting adaptation into a systemic context
 - Demonstrators cover a wide range of arguments and work with stakeholders from relevant sectors, public administrations, NGOs, citizens
2. Using holistic approaches to formulation of adaptation strategies
 - Pathways approach to develop adaptation strategies based on shared visions for transformation
3. Structured approach to the formulation of transformation strategies
 - Development of a “playbook” to support stakeholder workshops
4. Science based feedback to pathways developed at local level
 - Actions to assess economic, ecologic and social consequences of envisaged actions using models and scientific assessments
5. Stepping up upon and integrating existing local initiatives (e.g. coastal contract)
