“Making finance flows consistent with a pathway towards low greenhouse gas emissions and climate-resilient development” Paris Agreement, Article 2

2015 EU greenhouse gas emissions by sector

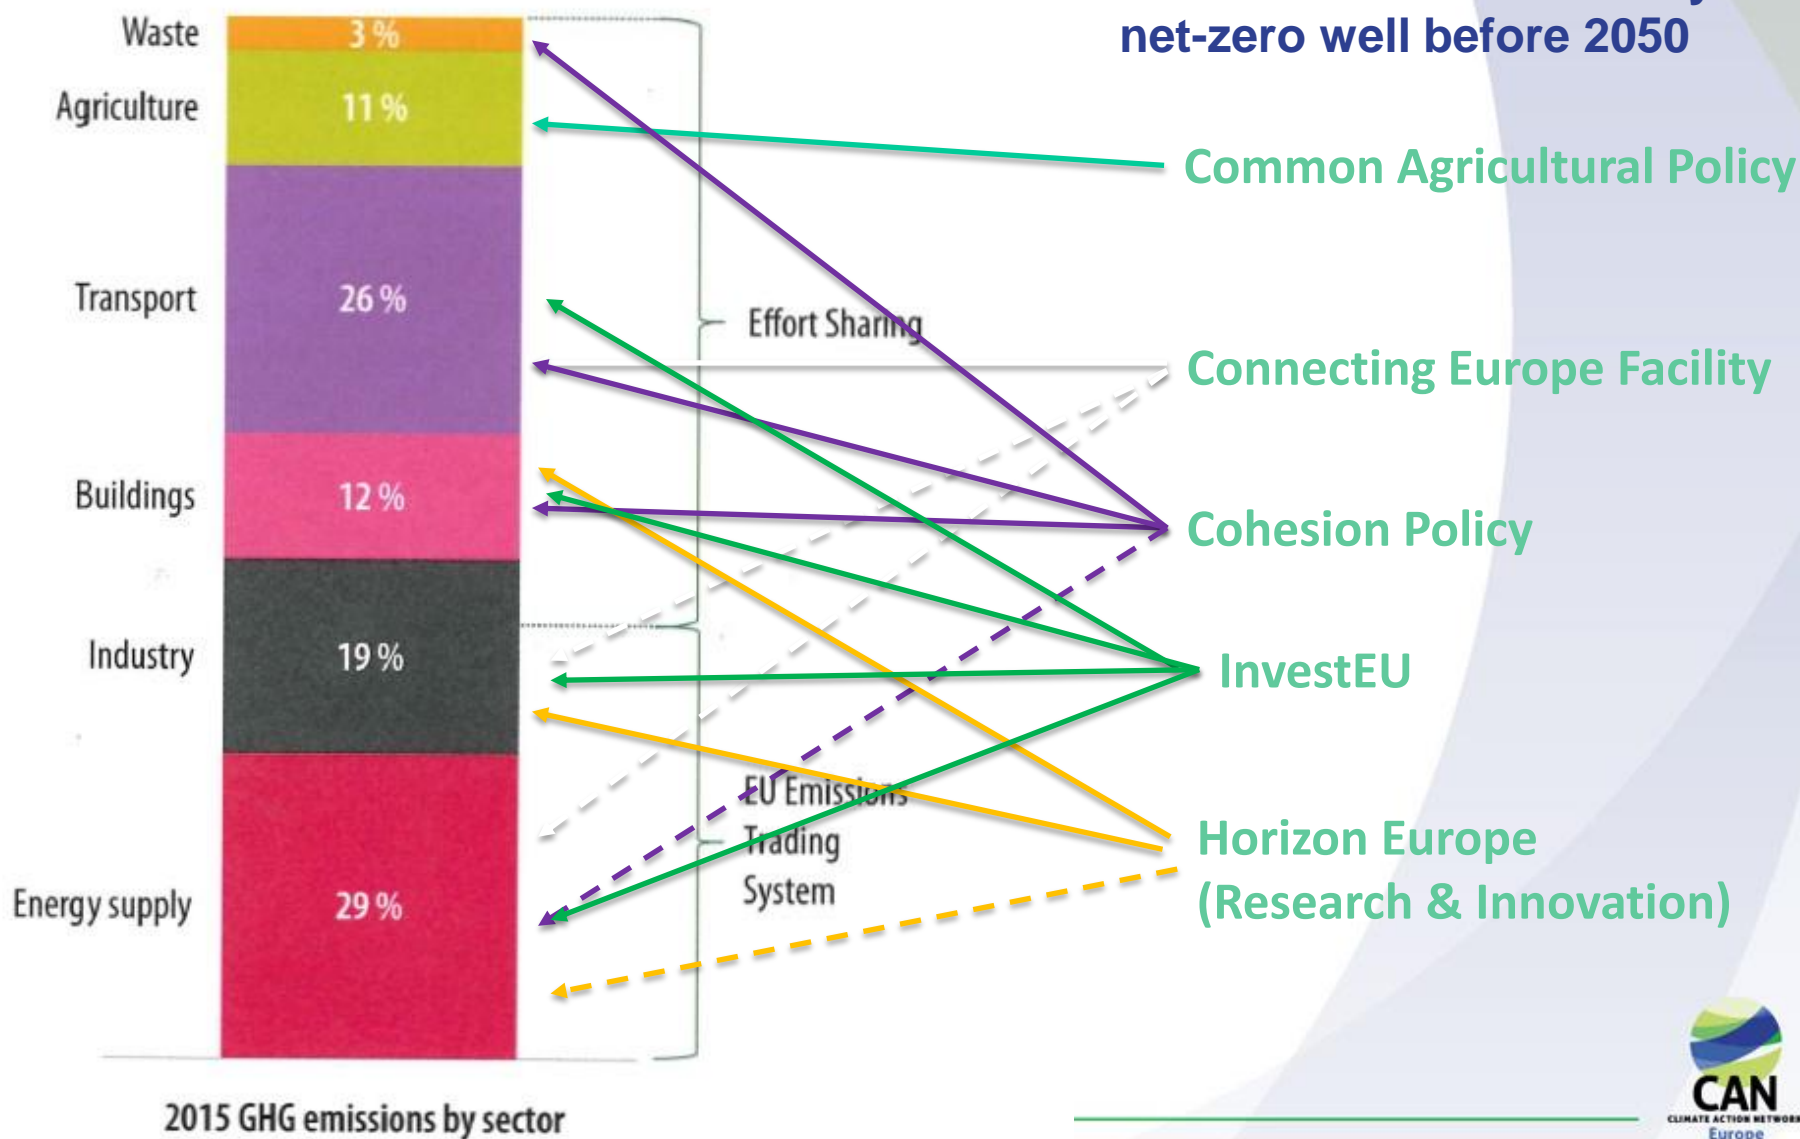

**‘Paris compatibility’:
Well above 55% GHG reduction by 2030 +
net-zero well before 2050**

2015 EU greenhouse gas emissions by sector

‘Paris compatibility’:

**Well above 55% GHG reduction by 2030 +
net-zero well before 2050**

2030 goals for climate and energy

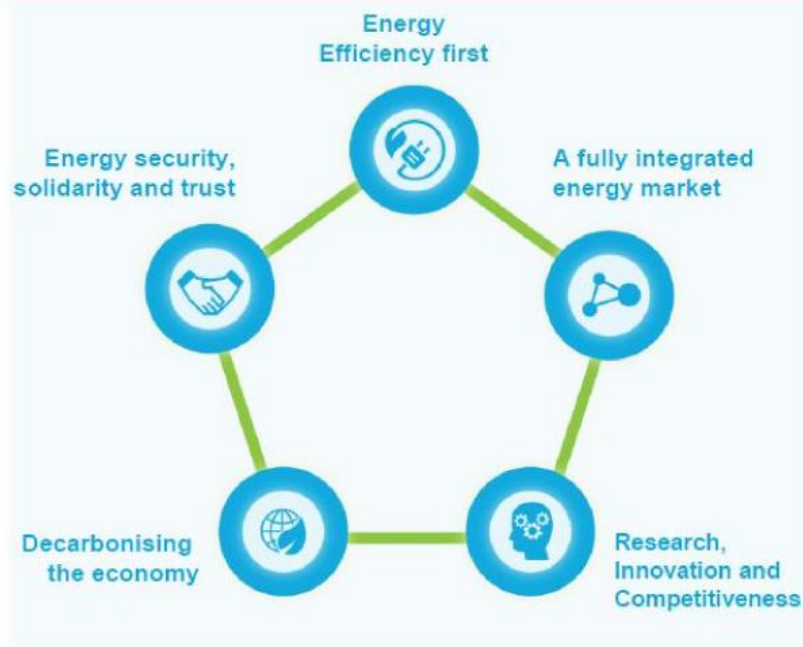

“40% GHG reduction,
32% renewables and
32.5% energy savings”

“ ... this won't be enough to
limit global warming to 1.5C ...”

SMART AND CLEAN ENERGY FOR ALL IMPLEMENTING THE ENERGY UNION STRATEGY

ENERGY UNION: 5 MUTUALLY SUPPORTIVE AND INTERLINKED DIMENSIONS

Energy Union Governance via
National Energy and Climate Plans (NECPs)

Where will EU funds go ...?

Link to NECPs

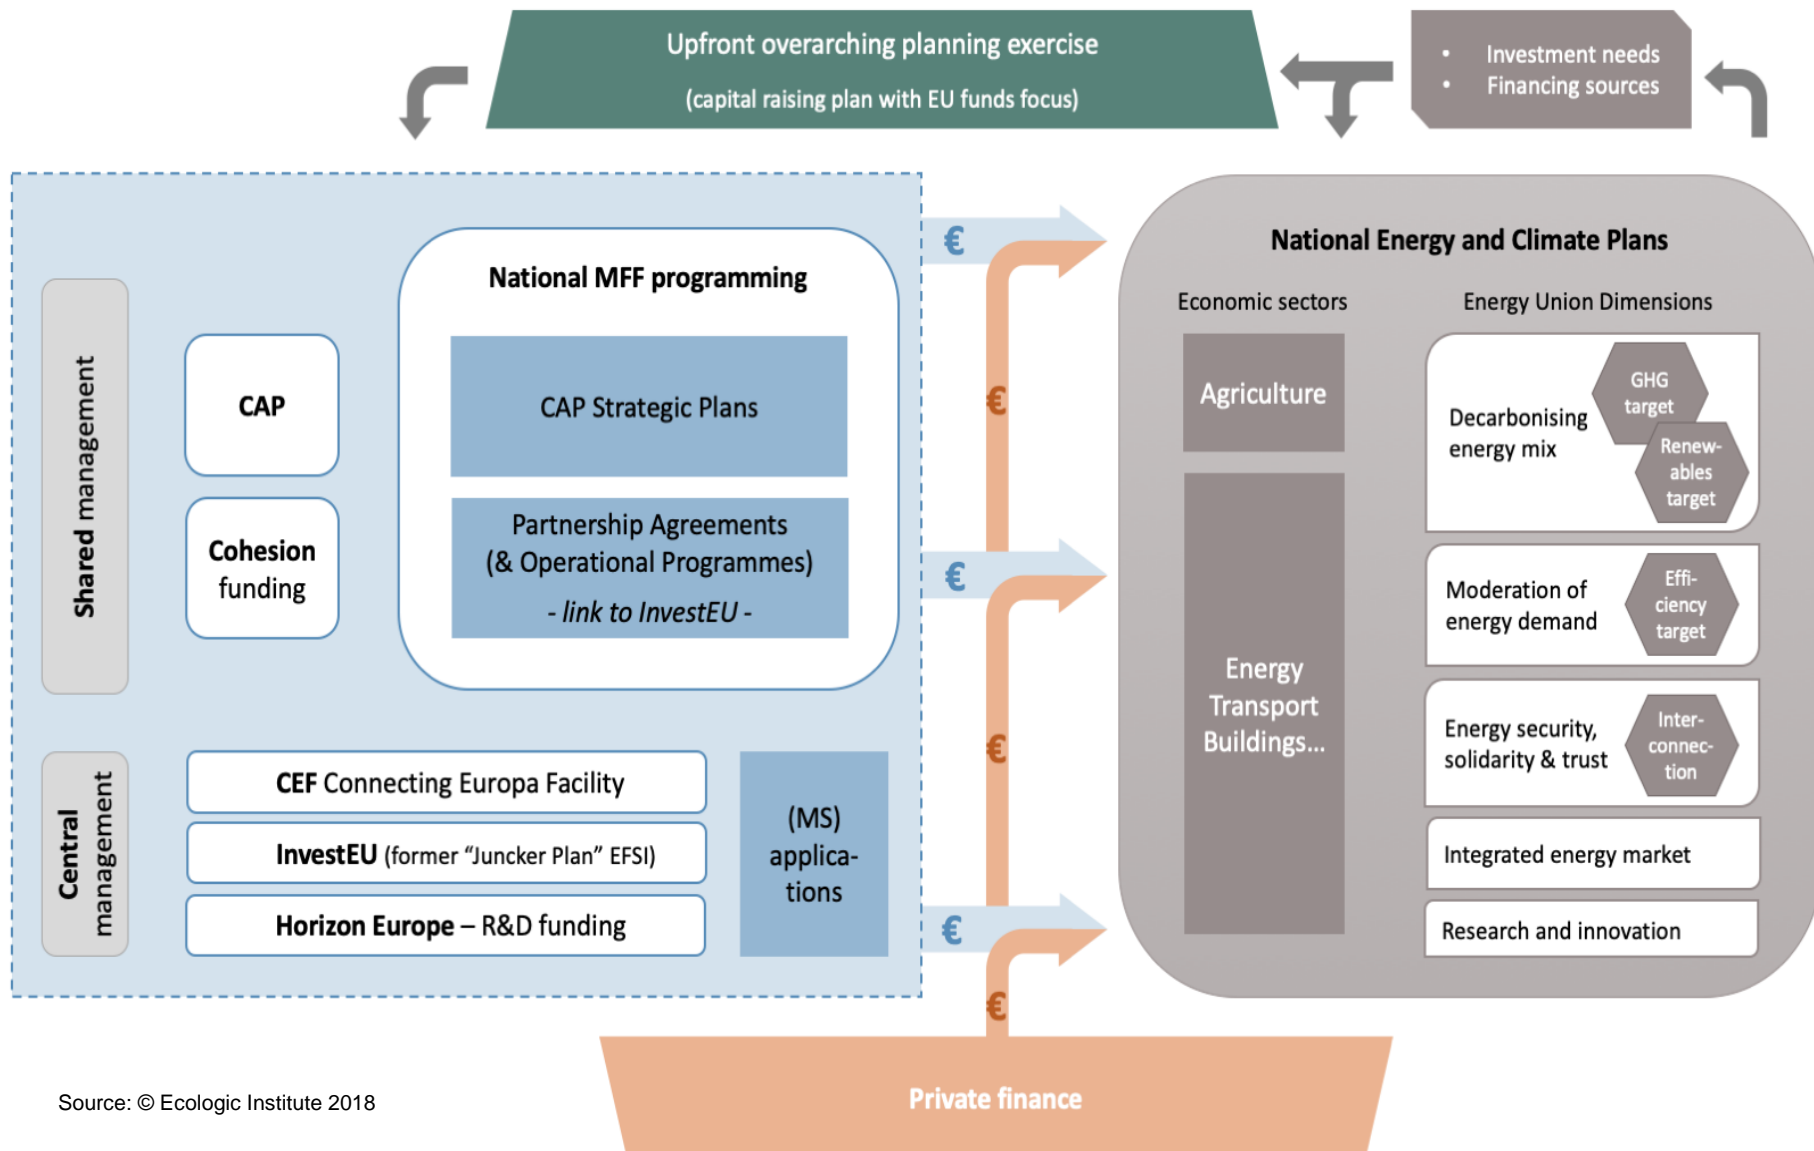

Cohesion Policy enabling condition -

‘National Energy and Climate Plan are adopted and include:

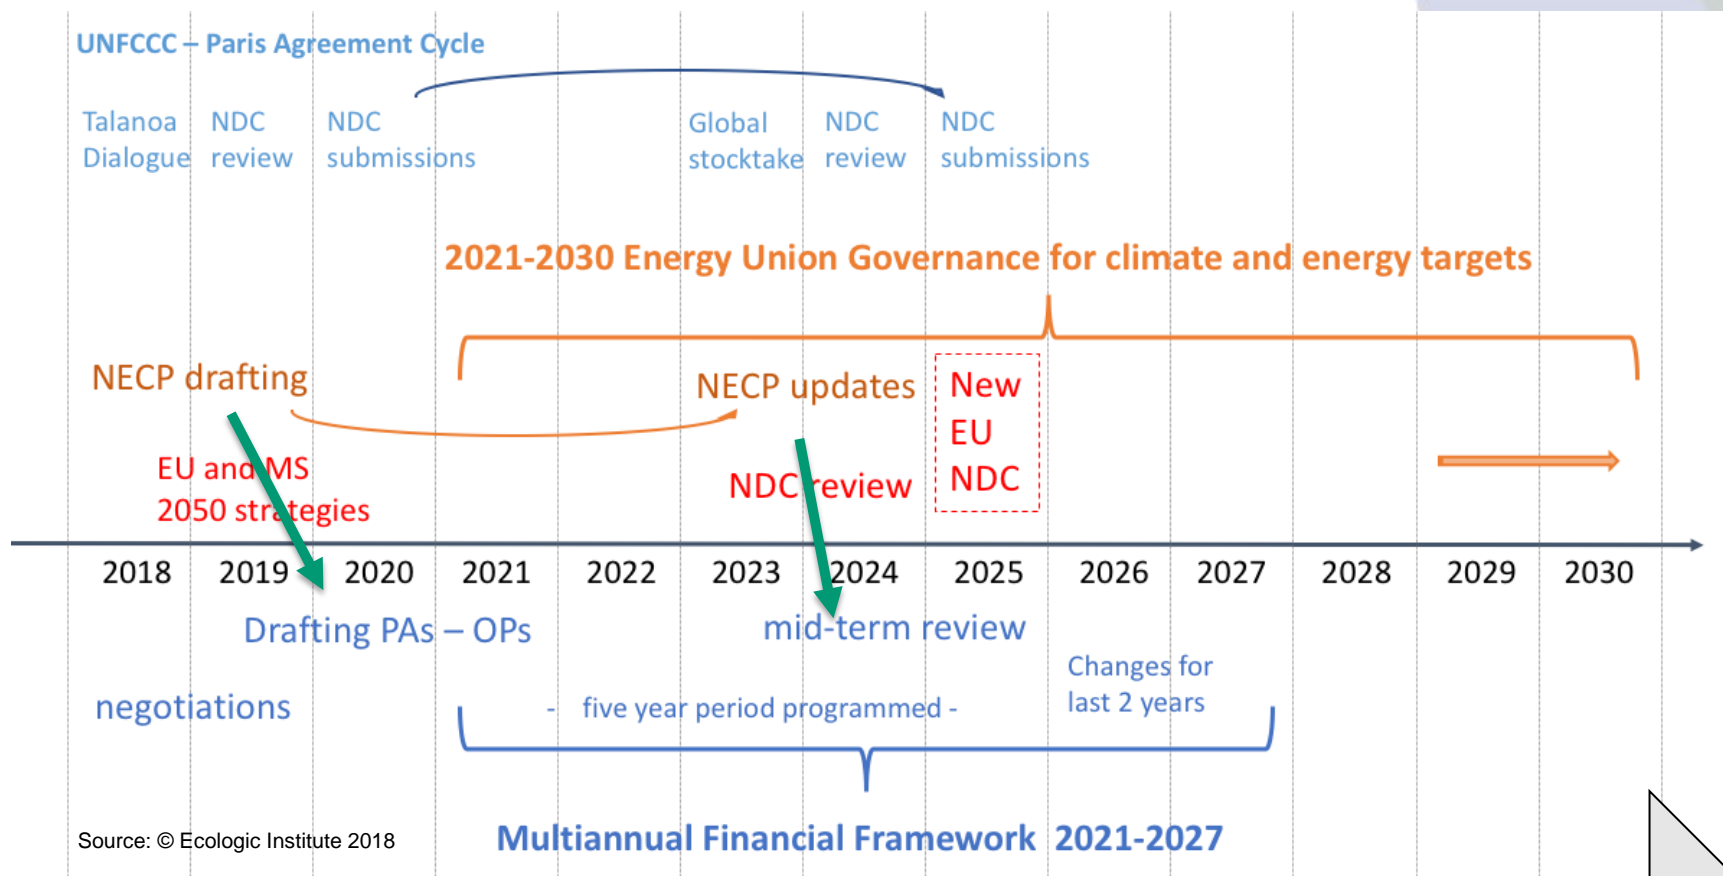

1. All elements required by the template in Annex I of the Regulation on Governance of the Energy Union
2. An indicative outline of envisaged financing resources and mechanisms for measures promoting low-carbon energy’

- NECPs inform programming, 5+2 years
- EC’s 2030 climate and energy recommendations part of Cohesion Policy’s strategic framework (programming and mid-term review, Partnership Agreements and Operational Programmes)
