A Compendium  
of Circular  
Architecture

The concept stands.

We know where we want to go.

We know that it can be done.

We know how to do it.

Some might say “We cannot afford it”

But no, we can't afford not to.

# Quality - transform the built environment

# Most and least restrictive service sectors in 2022

---

Distribution services, sound recording, and architecture services were the most liberal service sectors in 2022.

Air transport services, legal services, and accounting and auditing services were the most restrictive sectors on average.

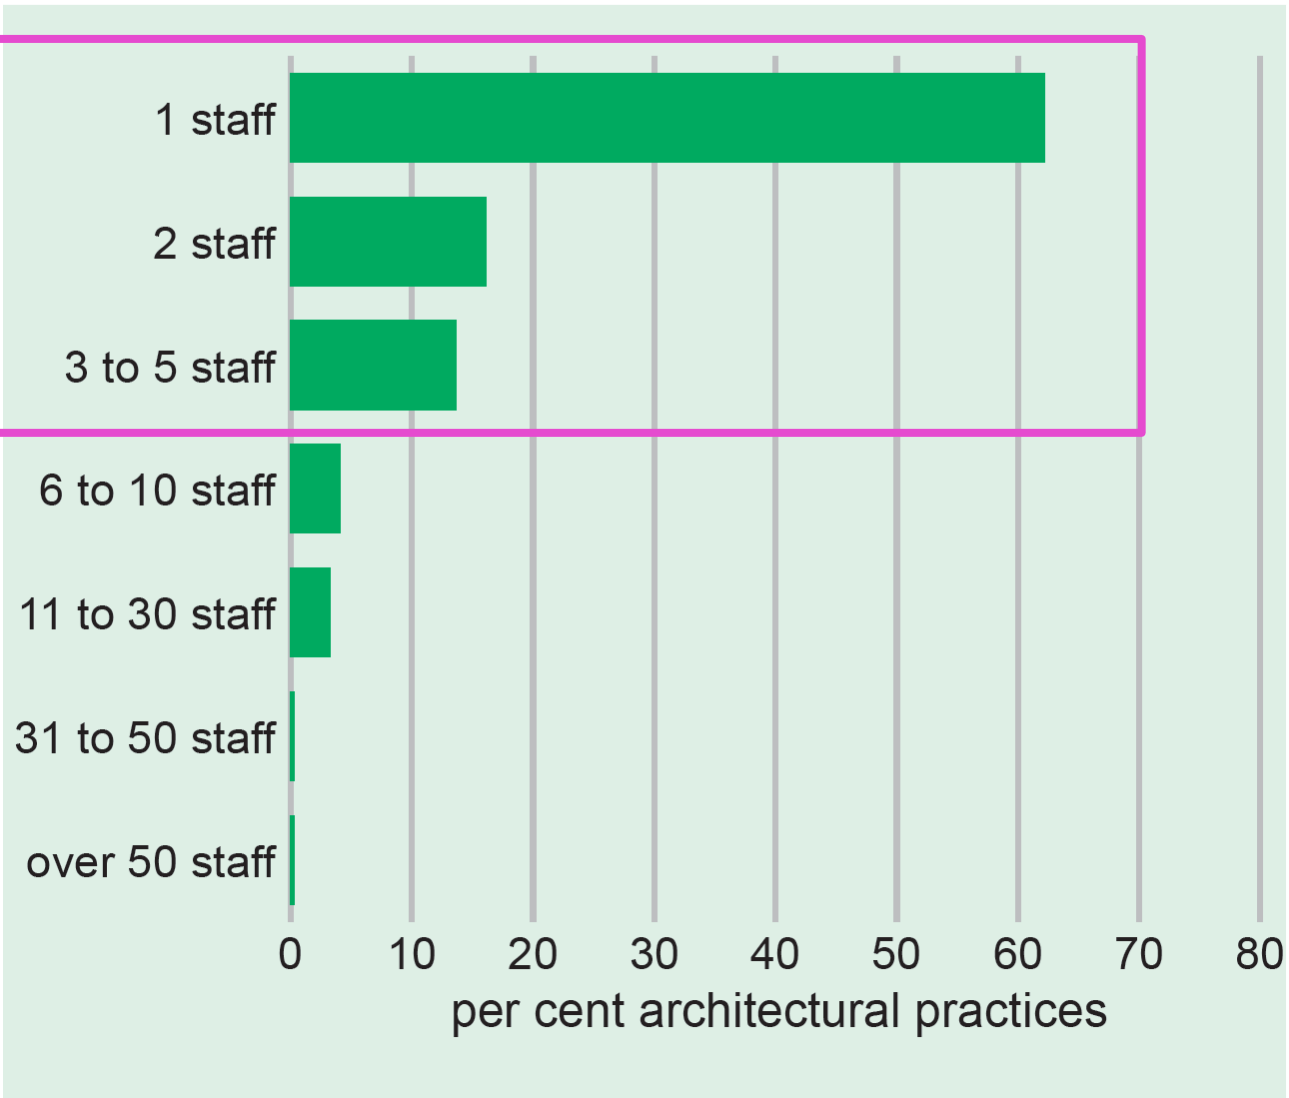

Skills – Knowledge – Competences
