

FIRST STEPS PROGRAMME

Day of the Liberal Professions 2023

Fostering skills and delivering the Green Deal

Sarah Sherlock MSCSI MRICS MII, VP CLGE

European Economic
and Social Committee

THE COUNCIL OF EUROPEAN GEODETIC SURVEYORS
COMITÉ DE LIAISON DES GÉOMÈTRES EUROPÉENS

The **Council** of European Geodetic Surveyors
Comité de Liaison des Géomètres Européens

***To move forward and make progress ... always
requires us to take that first STEP!***

CLGE through its First STEP programme is proposing ...
to offer students, employers, and educational institutions
greater access to an even greater choice of survey
colleagues that truly understand and meet their needs,
throughout all of its member states.

 - Educational Bodies

CLGE's FIRST STEP Programme

Status: In progress

It is a unique framework dedicated to **surveyors, and surveyors needs**, which seeks to work with and enhance existing educational programmes; however, it is focused on leveraging CLGE's unique position to bring together surveying students, educators and employers within our regions, and beyond.

1. Boost young people's possibilities by connecting surveying students from around Europe with dedicated surveying opportunities that will enhance their educational experience.
2. Broaden their horizon, and bring their learning to life as they will have greater access to established employment experiences.
3. First STEP is a vision **for surveyors, by surveyors**, that understands their needs, and the power of positive learning outcomes ... better information leads to better career choices, and less wastage
4. First STEP will encourage & motivate collaboration, build confidence & attitudes to International exchanges, amongst the surveying profession.
5. Improve international academic (surveying) attainment, which assists young people's earning potential later in their careers.
4. Delivering the foundations that surveyors, and future surveyors need for success!
