

Cap Collectif

we generate collective intelligence

Participatory Budget

*assign part of its budget to
projects proposed and chosen by
the inhabitants*

our main features

→
we've got many others!

step-by-step project management

- => each process is adapted to each need
- => facilitates the understanding of the process

project geolocalization

- => a map and its search engine to visualize the projects

analysis of submitted projects

- => mail notifications as things happen
- => assignable settable statuses to projects
- => differentiated management of roles and rights

so usefull!!

voting system adapted to the need

- => simple vote, vote according to a budget or preferential vote

user account and authentication

- => light registration with required fields only
- => validation by mail or text messages // *secured*

top-level project deposit

- => customizable deposit form *smart*
- => anti-duplication feature
- => project summary sheet to admins

projects state of progress

- => enable citizens to measure the progress of selected projects

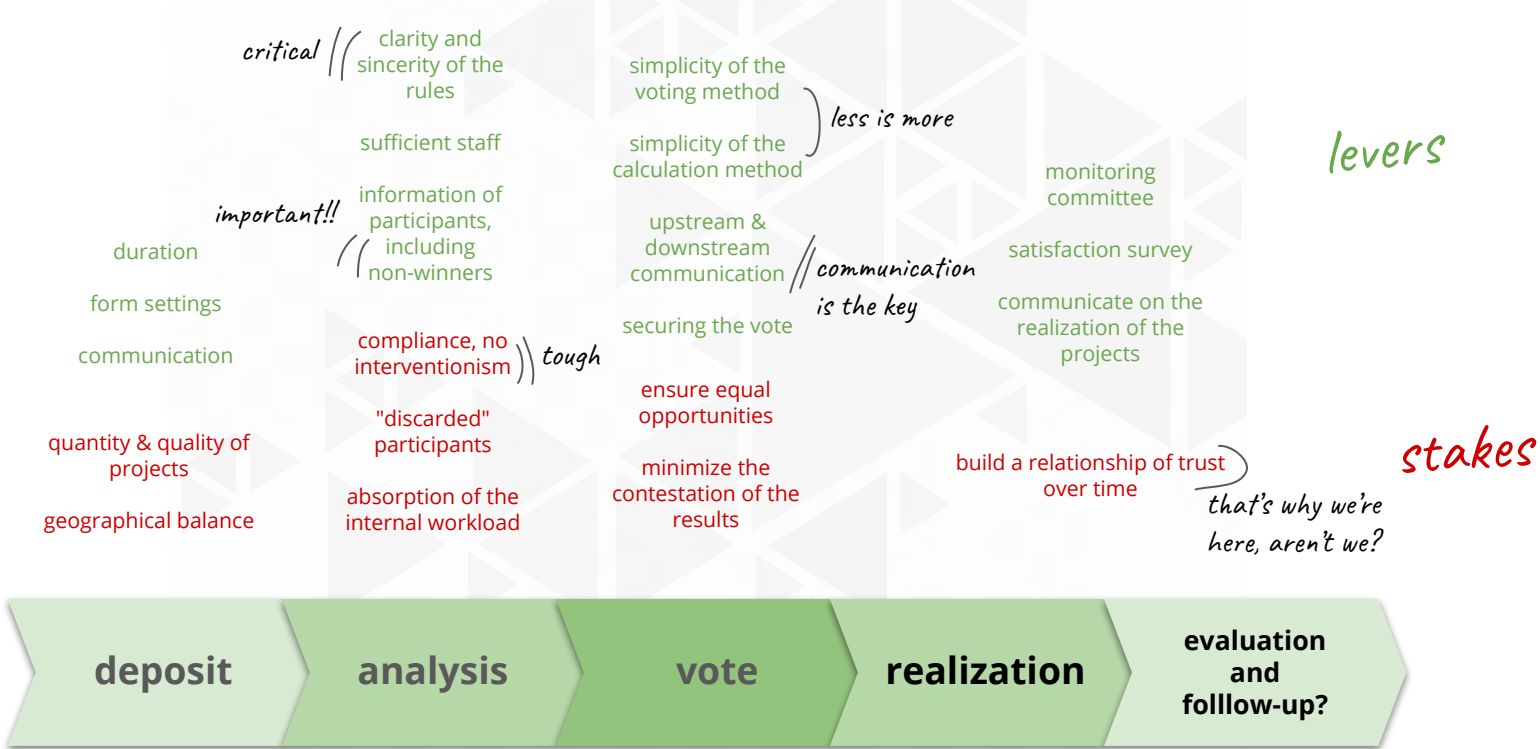

We have created a [network of clients](#) that allows us to work on the needs identified by them.

A real opportunity to foster collaboration and [share their expertise](#) on the organization and animation of their participative approach.

This network meets twice a year.

our stepwise method

- ✓ a **truly growing** practice
- ✓ generates **satisfaction** for both elected representatives and citizens
- ✓ an **entry key** for more complex (deliberative) participation
- ✓ a relatively **standardized and secured** exercise
- ✓ improve the **working environment** of the administration staff
- ✓ reinforce the **sense of belonging** to the community
- ✓ a good fiscal **education** exercise

make it simple

innovate in communication

inform / federate internally

Participatory Budget

« As a historic player and pioneer of participatory democracy [...] in a dominant position on the market, the young company has a platform that has proved its worth »

The participative budget designed for the metropolis of Rennes received in 2016 the first SmartCities Innovation Competition Prize, in the category "civic participation", organized by *Le Monde*.

Cap Collectif ranked in 2017 among the 1,000 "remarkable" innovators of the French Tech and in the club of 6 civic start-ups that count for tomorrow by SNCF Development.

OMG

Collective Cap rewarded in 2017 by the Participation & Concertation trophy, awarded by the professionals of the digital democracy.

↖
super proud too!
