

CITIZEN ENERGY-ACTORS AND THEIR BARRIERS

Boosting non-state climate action

The 4 D:

Decarbonisation

Decentralisation

Digitisation

Democracy

CITIZEN ENERGY 2.0

Overcoming „produce & forget“

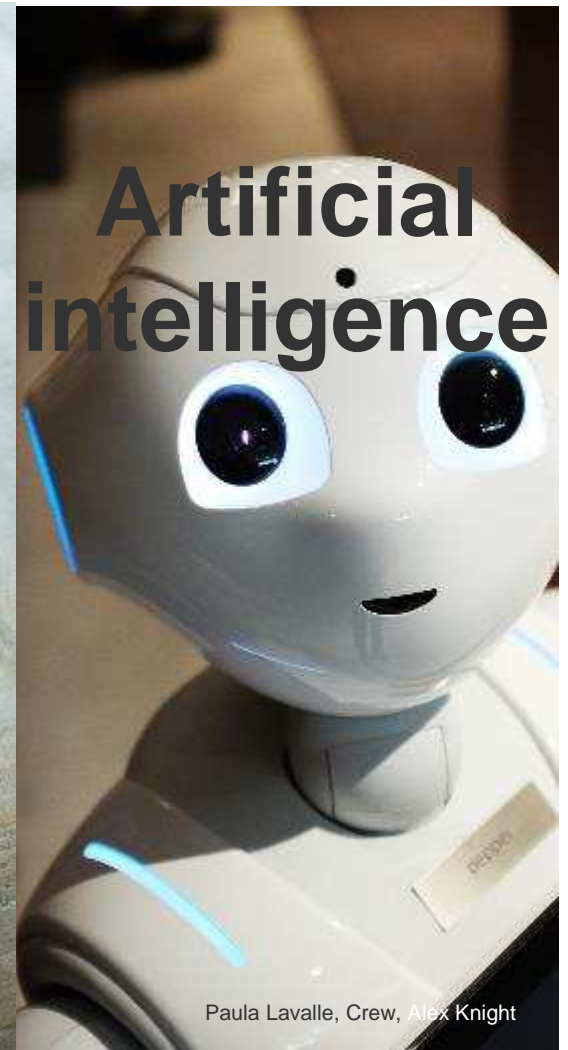

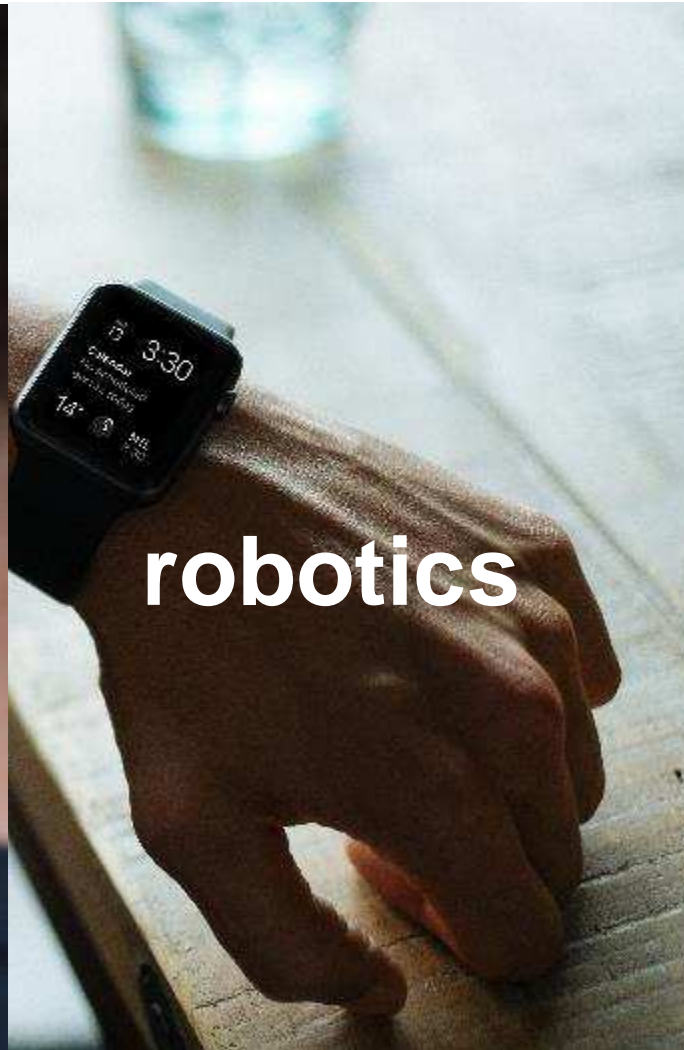

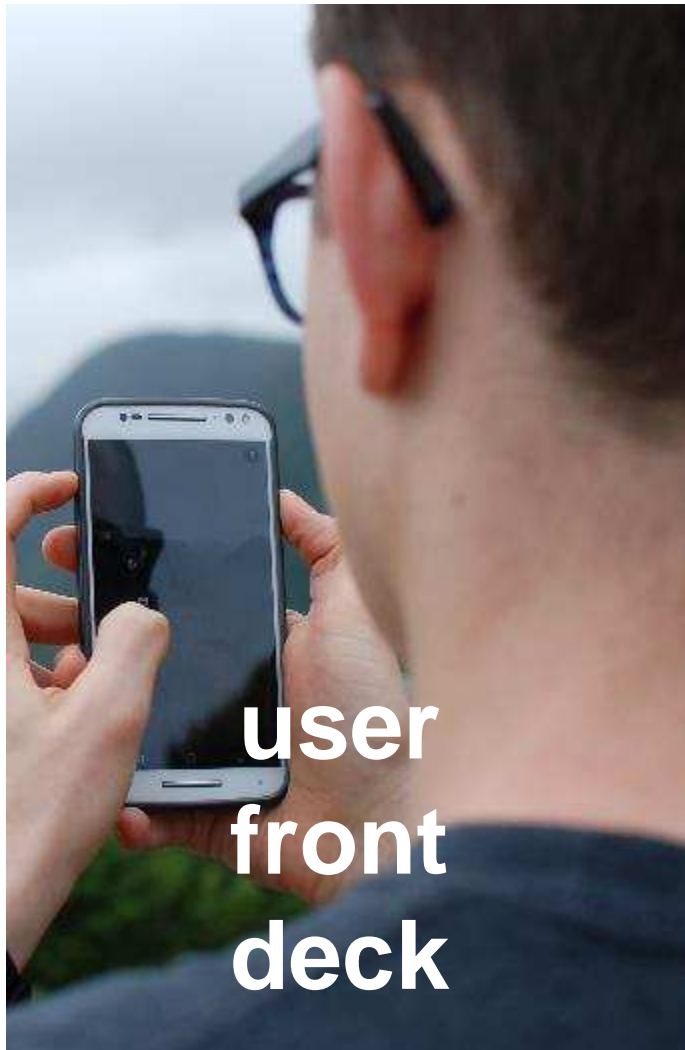

**Becoming a fully responsible and
fully entitled energy manager**

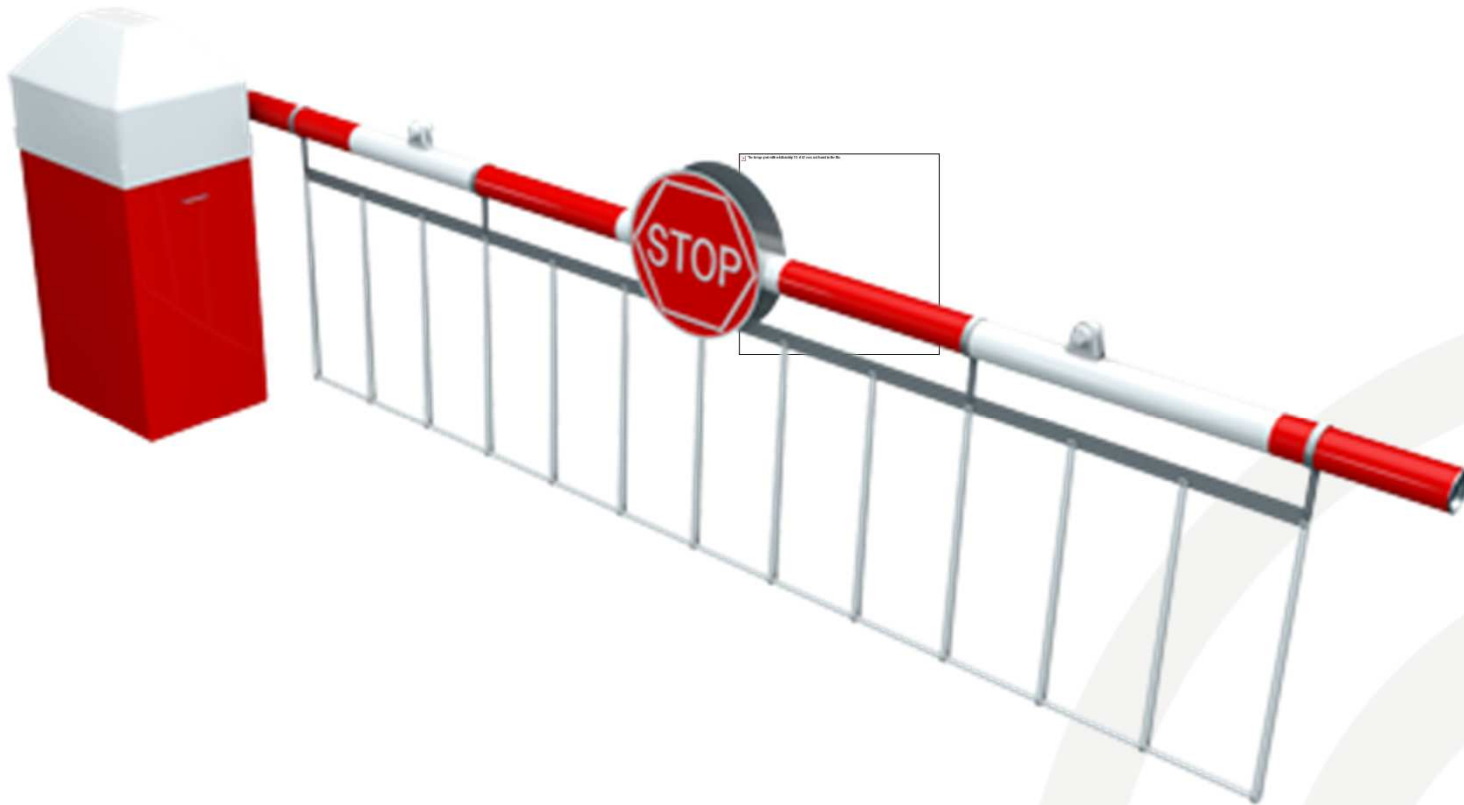

PROSUMER 2.0 CONSUMERS AND COMMUNITIES AS BALANCING MANAGER AND TRADERS

THE THREE ELEMENTS

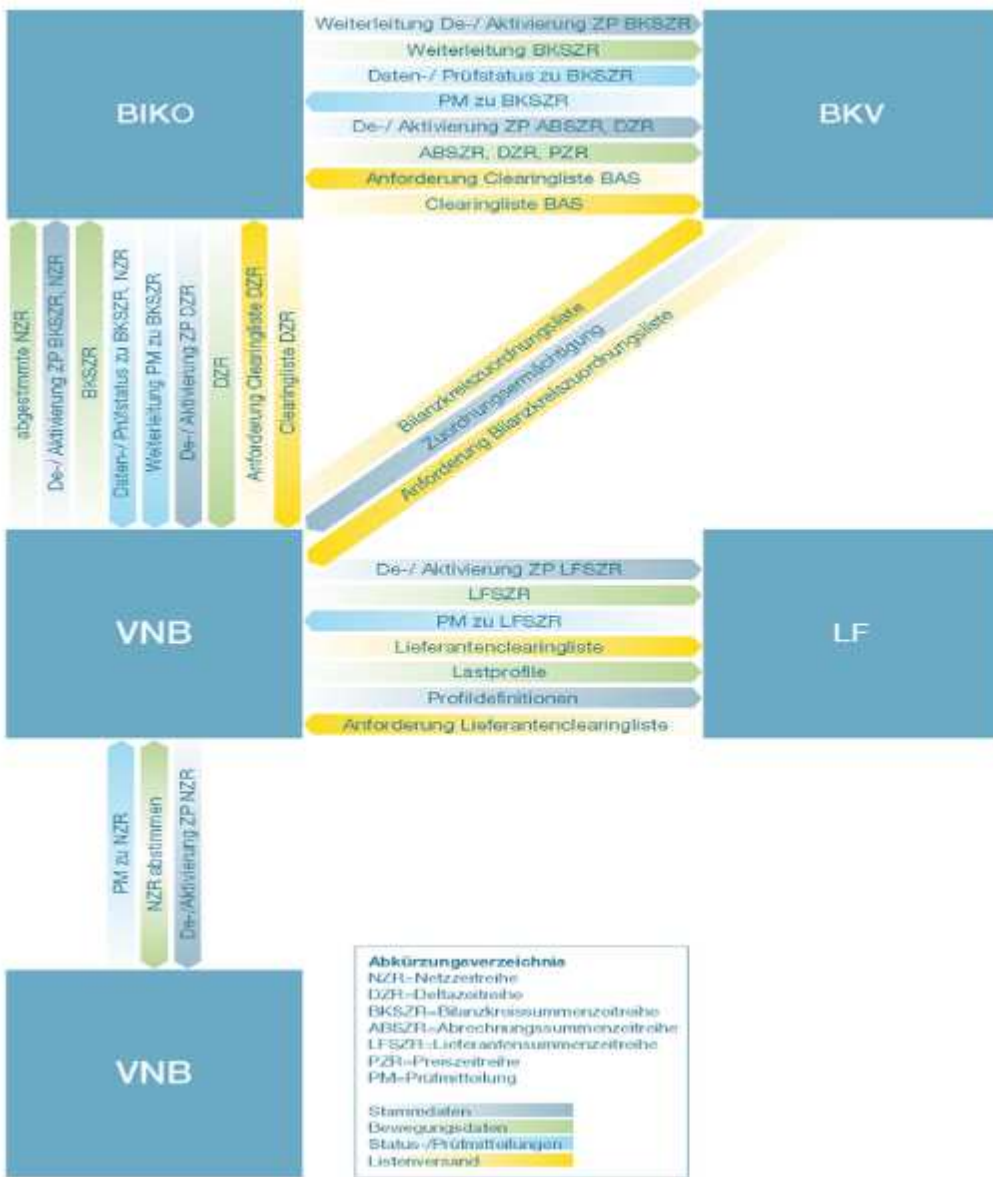

THE BARRIER

Market rules

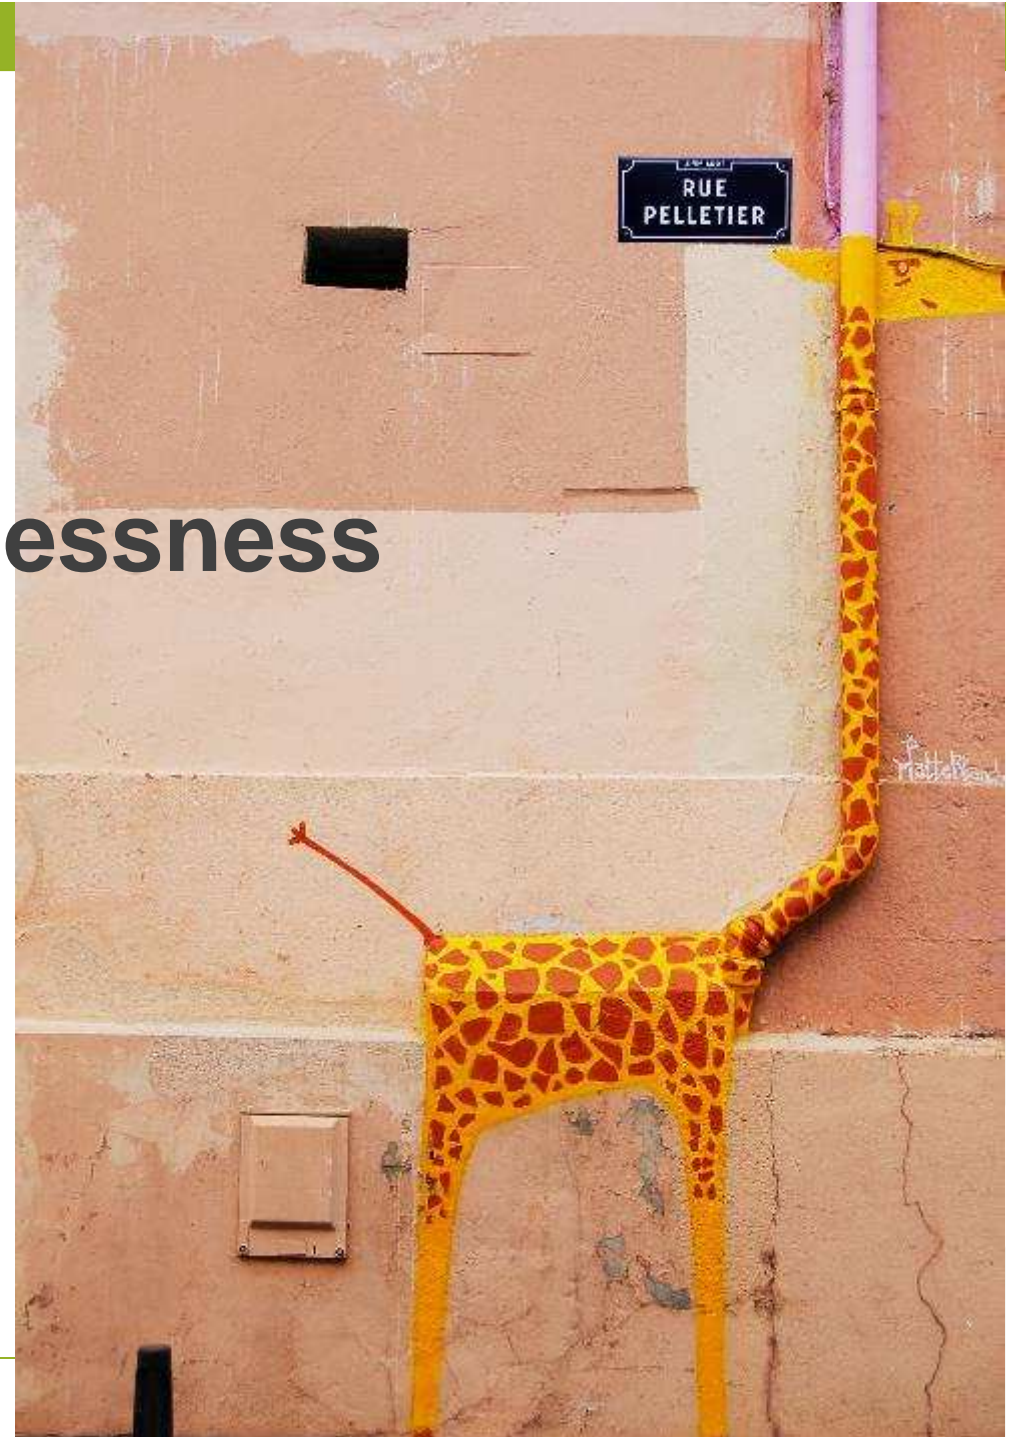

Market rules
that are made by
large entities

Market rules
that are made by
large entities
...and made for
large entities

**Overcome
powerlessness**

**Guarantee
that
people can
act!**

Assessment:

Which market rules are necessary, which are unneeded barriers?

Can de-minimis-rules help?

How can we become ready for liberalisation 2.0?

Zeigen, wie groß Bürgerenergie ist!
