The screenshot displays the British Columbia Mineral Titles Online (MTO) web application. The header features the British Columbia logo and the title "Mineral Titles Online", along with a search bar and an accessibility icon. Below the header is a navigation menu with tabs for "Basic Tools", "Print and Export", "Drawing", "Measure", "Search Mining", "Search Cadastre", "Search Other", and "Query". The "Basic Tools" tab is active, showing a sub-menu with icons for Home, My Layers, Pan, Zoom In, Zoom Out, Full Extent, Feature Location, Back, Forward, Bookmarks, Albers, Lat / Long, and UTM. The main content area is titled "MTO Map and Query Tool" and contains a map of British Columbia. A blue box with the text "I want to..." is overlaid on the map. The left sidebar provides information about the MTO application, including its purpose, a link to the application, and details about the "Finding Data – Searching and Querying" tool. The bottom of the interface includes a scale bar (0 to 300km) and a copyright notice for the Government of British Columbia, DataBC, and GeoBC.

MTO Map and Query Tool

MineralTitles OnlineBC

Mineral Titles Online (MTO) is an Internet-based mineral titles administration system that allows the mineral exploration industry to acquire and maintain mineral titles.

MTO Application: <https://www.mtonline.gov.bc.ca>

This mapping tool was specifically designed for mining clients and can be used for general map making and querying. Event registrations must use the MTO application.

Finding Data – Searching and Querying

The **Feature Location** tool within the **Basic Tools** tab allows for querying the location of features in the following data sets: 250K mapsheet grid, Community Watersheds, Conservancy Areas, First Nation Treaty Lands, First Nation Treaty Related Lands, Indian Reserves, Land Districts, Municipalities, National Parks, Natural Resource Areas.
