

# Best Practices in Better Regulation: a global perspective

Better Regulation:  
The EU and the Transatlantic Dialogue

Josef Konvitz, Head of Division  
OECD

# Why countries with different institutional contexts share the same objectives

- Events, crises
- Globalisation: value of large integrated markets
- Globalisation: regulatory quality for competitiveness
- Globalisation: transparency
- Good governance principles – trust, consultation

# Regulatory principles and OECD peer review process

- 21 country reviews
- Monitoring exercises

# Learning and exchange of experiences

- Core unit with clear policy role
- RIA system
- Regulatory authorities
- The stock of regulations
- Multi-level co-ordination

## Changing the administrative culture:

- Canada: Smart Regulation
- Korea: "unbundling"
- Japan: Deregulation zones
- Mexico: Reducing administrative burdens

## Issues for attention

- Regulatory authorities: complexity of mixed functions
- Relations with parliaments
- Risk assessment and economic innovation
- Informal economy
- From utilities to services
- Ageing society
- Training
- Consultation
- Engagement with developing countries
