European Citizens' Initiative

More Than Education

Shaping Active and Responsible Citizens

What are we asking the European Commission for?

SUPPORT FOR CITIZENSHIP EDUCATION

A set of incentive measures, including support and monitoring, to develop citizenship education in curricula on all levels of formal education throughout Europe, aimed at shaping democratic citizens.

A democratic society relies on the citizens' participation, shared values and capability of critical thinking. The Commission should support member states in their responsibility to enable young people from all backgrounds to develop competencies for participating responsibly in society. To promote cohesion, action should be coordinated throughout the Union, by setting a long-term agenda, creating benchmarks, providing support to states, doing periodic evaluations and sharing best practice.

AEGEE / European European Students' Forum

AEGEE is one of Europe's biggest **interdisciplinary student organisation**, striving for a democratic, diverse and borderless Europe. Founded in 1985 in Paris, AEGEE puts the idea of a unified Europe into practice. **Operating without a national level**, AEGEE brings 13000 students from 40 different countries directly directly in touch with each other.

Focus Area IV

CIVIC EDUCATION

AIM 1

Increase the civic competences of AEGEE members, enabling them to become responsible citizens.

AIM 2

Put civil education on the political agenda on all levels

Our strategy?

- Students with no funds – only volunteers!
- Learning by doing
- ECI as a trigger for discussion and creative innovation
 - Europe on Track Project
 - Hitchhiking competition
 - Traveling tablets
 - Short movie competition
 - Collaboration with experts in the field
- Documentation of the process
- Civic education through informal learning
