

Burning issues in internet safety

What the young people think...

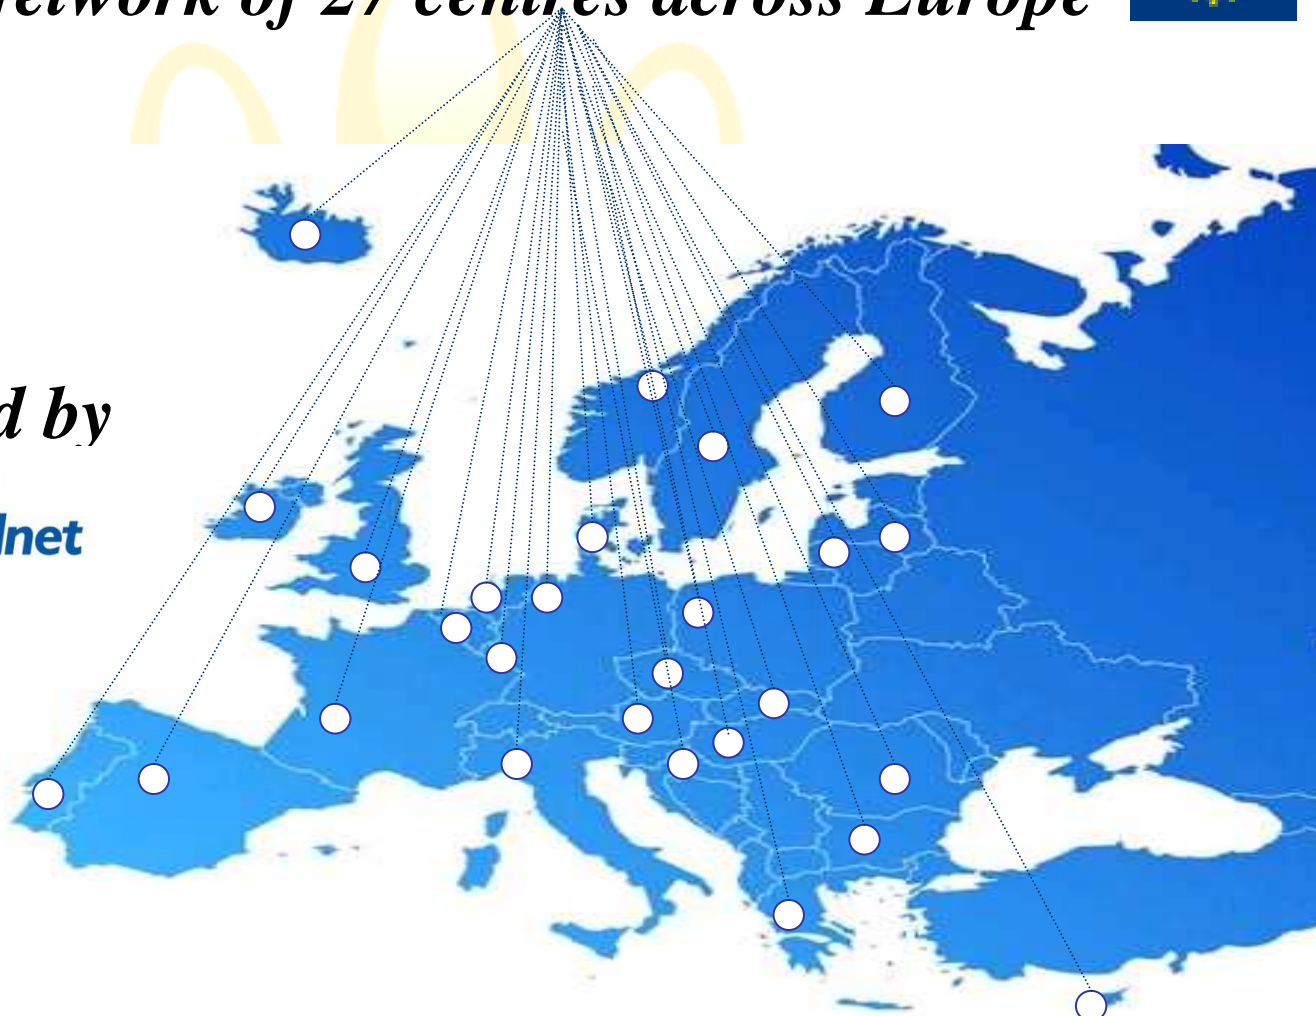

Janice Richardson
European Schoolnet

Network of 27 centres across Europe

Coordinated by

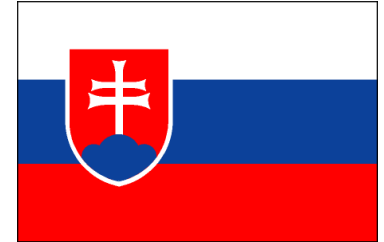

Set up in 2004, funded by the European Commission

www.saferinternet.org

SLOVAKIA

Youth panel of 17-18 years olds

- **Keeping personal information safe & private**
- **Exercising caution when meeting new people**
- **Pictures and videos - posting without permission, misuse leading to blackmail**
- **Cyberbullying by identity theft**

NETHERLANDS

Youth Council of 12 youngsters aged 12-19 that promotes youth empowerment.

- **Personal data and privacy on the internet**
- **Education of teachers/ awareness amongst parents**
- **Liability of information on the internet**

/ Inge Aarts (inge.aarts@ecp.nl)

AUSTRIA

This youth panel highlights views/opinions of young people about their use of new online technologies

Coping with pressure from peers through merging of off- & online life, private & school life forcing you to:

- **have extraordinary profile, attract attention**
- **present yourself as sexually active (sexting...)**
- **have expensive devices**
- **disclose intimate data**
- **teacher bashing**

Nearly no time nor place for “privacy” any more!

SWEDEN

Medierådet

- Adults worry too much about the wrong things
- Cyber-bullying, nasty comments, exaggerations
- Regretting giving out personal or sensitive information in blogs for example
- Receiving unwanted material (spam etc)
- Hidden costs after, signing up for service etc.

Thanks for your attention
